Notes:

These numbers are for the main Coursera course for every AIU course only without certificates for extracurricular activities nor guided projects nor extra courses (without grades for certificates).

Also note that some students are repeating the courses and may be assigned different courses by some instructors.

Numbers may differ from the website as some students are already enrolled in courses from previous semesters so were filtered out here.

In general for CSE this semester:

Total Number of Enrollments: 1514

Total Number of Completions: 847
